After spells coaching in Germany and Austria, Gary has devoted the majority of the last 15 years working with over 20 European Tour Pros, travelling extensively to over 200 tournaments around the world.

His most successful students to date are:

"Over the years, having both coached and learned from some of Europe's leading Tour Professionals, I understand that each and every one of us who plays golf has their own way of doing things. My style of coaching allows my students to gain a better understanding of their own golf swing. Ultimately my aim is to help YOU become better at what YOU do naturally and become a better, more consistent and much happier golfer as a result".

Tired of messing up around the greens?

Just off the green in 2 and need another 3 or 4 shots to get the ball into the hole due to poor chipping and pitching?

By applying the same principles and techniques as some of the finest short game exponents in world golf, you too can improve your short game and your scores dramatically. Sharpen up your short game!

Tired of missing putts?

How often do you have a putt for a birdie or par and walk off the green having messed up and made a bogey, double bogey or worse? All too often no doubt.

By adopting simple and workable techniques employed by some of the best putters in the world, you too can improve your putting and your overall scores dramatically. Putt like a pro, putt to win!

Tired of duffing / thinning bunker shots?

More often than not, most golfers are beaten the minute they see their ball in a bunker. The combination of fear and poor technique are sure to guarantee failure from bunkers.

However, by mastering a few basic techniques, you too can be the envy of your playing partners with your new found bunker play skills. Banish those bunker blues forever!
